SKILLS

- **Languages:** Python, C, C++
- **Web:** HTML, CSS, JavaScript
- **Data & Systems:** DBMS, SQL, Networking
- **Practice:** Software Development, Project Management

PROJECTS

Real-Time Face Mask Detection System | [GitHub](#)

2026

- Built a convolutional neural network that detects whether a person is wearing a face mask using real-time webcam input.
- Applied image preprocessing and transfer learning techniques to improve classification performance on different faces.
- Integrated OpenCV with the trained model to provide real-time predictions through a webcam feed.

Tech Stack: Python, TensorFlow / Keras, OpenCV, CNN, NumPy

Content-Based Movie Recommender | [GitHub](#)

2025 - 2026

- Developed a recommendation engine using cosine similarity over genre, cast, and plot-keyword vectors.
- Built a searchable HTML/CSS/JS front end so results are explorable rather than printed to a console.
- Processed and cleaned a multi-thousand-title dataset using Pandas for consistent feature extraction.

Tech Stack: Python, Pandas, scikit-learn, JavaScript

Student Record Management System | [GitHub](#)

2025

- Built a console-based CRUD application for managing admissions, grades, and attendance records.
- Designed a normalized MySQL schema and implemented multi-table joins and transactions for data integrity.
- Applied core DBMS concepts to move schema design beyond textbook examples into a working system.

Tech Stack: C++, MySQL, DBMS Design

Spam Email Detection System | [GitHub](#)

2025

- Built a machine learning model that classifies messages as spam or legitimate using natural language processing.
- Implemented text preprocessing, TF-IDF vectorization, and classification algorithms to identify suspicious message.
- Evaluated multiple models using precision, recall, F1-score, and confusion matrices to select the most reliable classifier.

Tech Stack: Python, Scikit-learn, NLTK, Pandas, TF-IDF, Matplotlib

CERTIFICATES

- C Programming Certification – Neo Colab LPU
- Introduction to Artificial Intelligence – Springboard / (Link)
- Introduction to Python – Saylor Academy

Jul 2026

Mar 2026

Sep 2025

ACHIEVEMENTS

- Earned A+ grade in Python, C programming and O grade in Database Management System.
- Solved 200+ Problems of Python and C Programming on Codetrantra and Neo Colab

EDUCATION

Lovely Professional University

Bachelor of Technology - Artificial Intelligence & Machine Learning

Phagwara, Punjab

Aug 2025 - Present

Hamirpur Public School

Higher Secondary Education (Class XII)

Hamirpur, Himachal Pradesh

Hamirpur Public School

Secondary Education (Class X)

Hamirpur, Himachal Pradesh
